

ISLAND RESORT

<https://duavatasustainabletourism.org/>

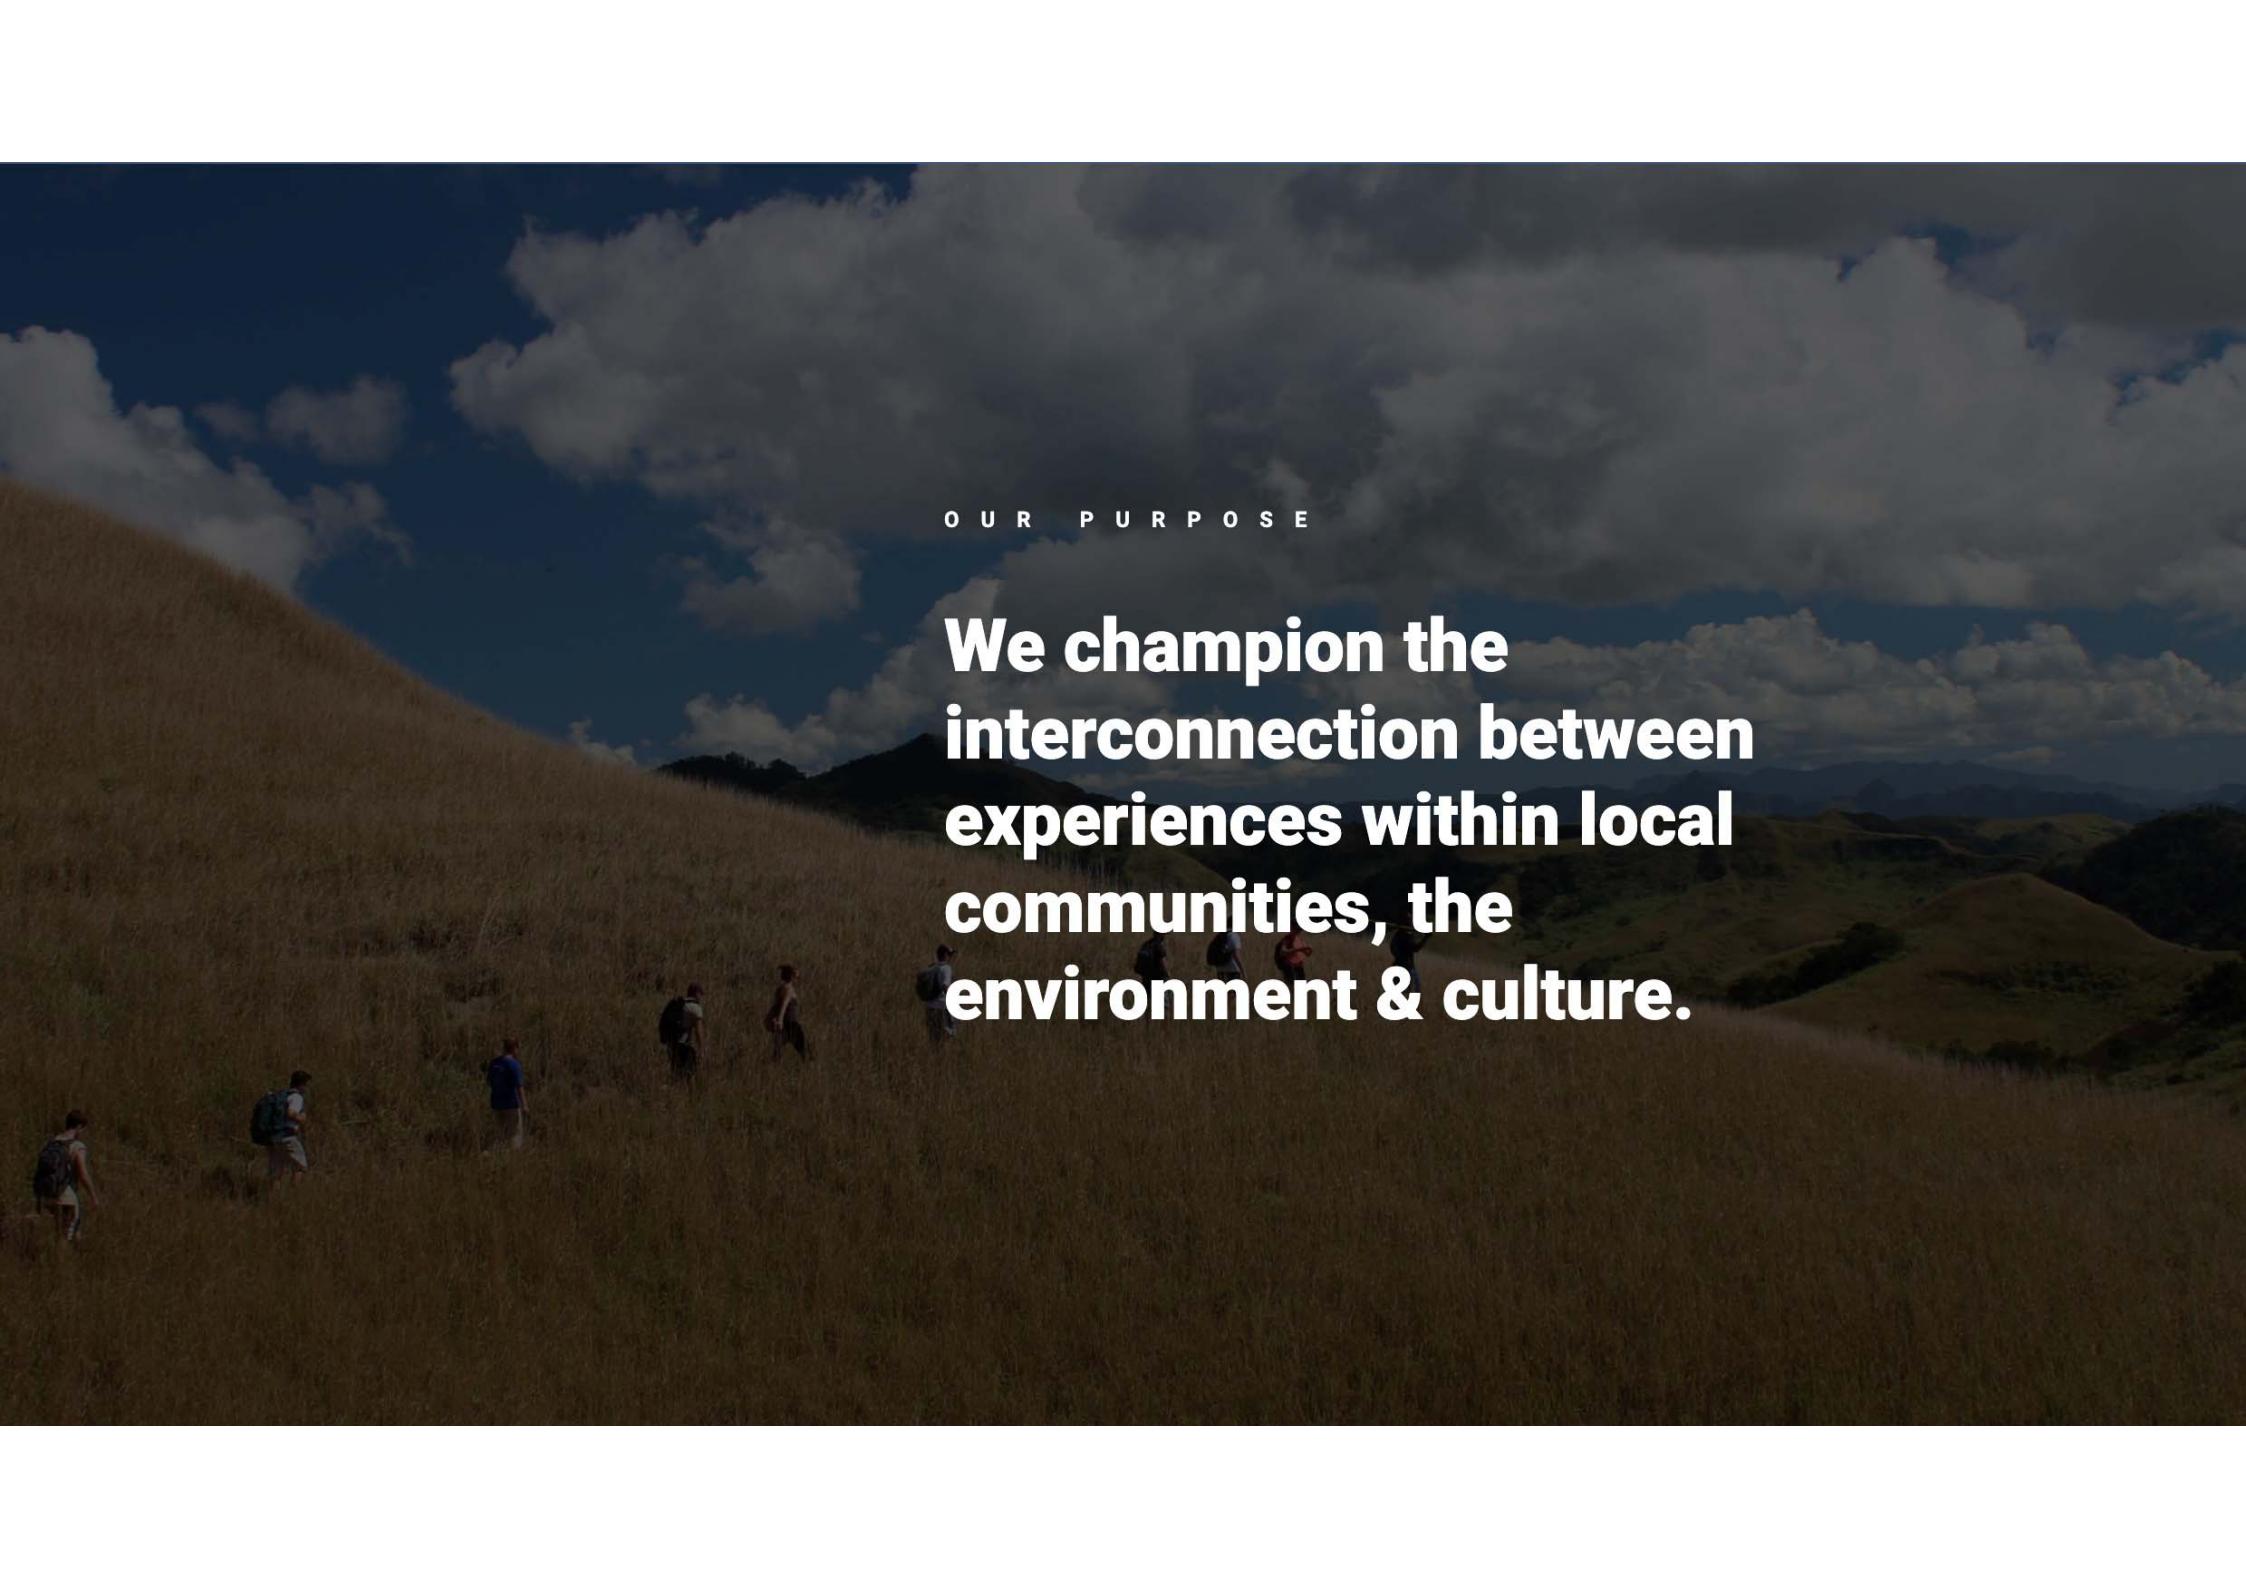

We're **Duavata**, the Sustainable Tourism Collective.

A photograph showing a group of people in yellow helmets and life jackets white-water rafting down a river. The river flows through a narrow, rocky canyon with steep, layered rock walls. The water is turbulent and white. The rafters are paddling through the rapids.

A B O U T U S

**We're the collective voice of
like-minded tourism
operators who believe
tourism should enhance
cultural heritage & the
environment.**

The background image shows a wide landscape with rolling green hills and mountains in the distance. The sky is filled with large, white and grey clouds against a dark blue backdrop. In the foreground, several people are walking through tall, dry grass on a hillside.

NEW ZEALAND TOURISM SUSTAINABILITY COMMITMENT

HE KUPU TAURANGI KIA TOITŪ AI TE
TĀPOITANGA

Industry Goals 7 & 8

Tourism is recognised for its contribution to protecting, restoring and enhancing New Zealand's natural environment and biodiversity.

- 7 Tourism businesses actively support and champion ecological restoration initiatives.

- 8 Tourism businesses are measuring, managing and minimising their environmental footprint.

Business Commitments

The Environmental Commitments suggest practical actions that tourism businesses can do to benefit the environment: ecological restoration, reducing carbon use, minimising waste and educating others on the importance of New Zealand's natural environment.

- 11 Ecological Restoration: Businesses contribute to ecological restoration initiatives.

- 13 Waste Management: Businesses have waste reduction and management programmes.

- 12 Carbon Reduction: Businesses have carbon reduction programmes towards carbon neutrality.

- 14 Education: Businesses actively engage with their visitors and communities on the importance of restoring, protecting and enhancing New Zealand's natural environment.

- d) The environmental impacts of the mitigative measures should also be evaluated.
- e) Any additional mitigative/rehabilitative measures, which have been considered, should be stated.

7. Monitoring

A monitoring plan should be submitted clearly stating: -

- The parameters to be monitored
- ii) Frequency of monitoring
- iii) Who will do the monitoring?
- iv) Who will the monitoring report be submitted to?

8. Summary and Conclusion

- a) Appropriate conclusions should be drawn for each section of the EIA report. Summarize the environmental impacts of the

As an industry we must contribute positively to:

1. Enhancing
2. Restoring
3. Maintaining
4. Monitoring
